

H11 PLASMA GOLD 2800K

Product Description

Lunex Plasma Gold generates up to 80% more light and a beam which is up to 30 meters longer than in standard halogen bulbs. The 2800K bulbs emit a strong yellow light that gives a perfect appearance - give your car an original look and get better visibility at night with bright lights. In bad weather and fog you have a better view, and other road users see you better.

- Up to + 30m more distance
- Up to + 80% more light
- Fully road legal

Lunex halogen bulbs produce up to two times more luminous power than standard bulbs, thereby improving driving safety in all conditions, provide maximum visibility. They last far longer than standard bulbs. The light they provide is more intense and offers a consistent, clearly defined beam.

Unique patented packaging to ensure reliability of the product transport as per picture above.

UV filter – extended the lifetime of bulbs - increase the life span.

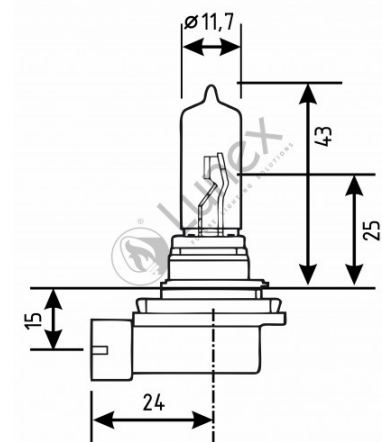

HQ UV Quartz Glass is a very strong glass, resistant to extreme temperatures and vibrations, eliminating the risk of explosion. UV quartz glass emits a stronger, cleaner light.

Simple to use, no need to change the lamp line and easy installation (plug in & replace stock light bulbs).
